Task 2: 🎧 **Track 02**

First John.

John: … are driving me crazy. At rush hour, it can take me two hours to get from one end of the city to the other. There wouldn't be such bad traffic jams if they stopped cars from parking in the street. There should be more off-street parking. Then there would be more space for cars on the street.

Next, Anne.

Anne: … cars downtown. There's simply too much traffic, and the only way to reduce the amount of traffic in downtown is to make drivers pay to enter the downtown area. Like they do in London. There, if a car enters the downtown area, the driver has to pay. It works in London, and it would work here. Make drivers pay if they want to drive in the city center. O-or use public transportation!

Next, Carlos.

Carlos: … I almost got killed by a car the other day! What they should do to make biking safer is have more lanes where only bikes are allowed. If you separate cars from bikes, biking will be safer. Bike lanes are the answer.

Next, Yumiko.

Yumiko: … so slowly. I want to get across town more quickly, and what they should do is get more buses. If there are more buses, more people will use them and not use their cars, and then there will be less traffic, so traveling times will be quicker.

Finally, Craig.

Craig: … enjoyable anymore. Shopping should be fun, but it isn't because of all the traffic. What they should do is stop cars from driving on the main shopping streets. It-there should be car-free streets in the main shopping areas. You know, to keep the cars away from the shoppers!

Write a composition about the following topic

Suggested answer:

Dear Minh An,

Last week, I had a wonderful holiday with my family. We attended the Elephant Race Festival in Dak Lak, Viet Nam. It is often held in March every year. It is a race among elephants. There are of course riders on the elephants. This festival is very important and meaningful because it's a festival for elephants. People here think that elephants work hard all the year round, and this festival is a "thank you" to them. The winning elephant is given a laurel wreath. Like its owner, the elephant expresses its happiness and enjoys the sugar cane and bananas from the festival-goers. After this race, the elephants participate in the competition of swimming across the Serepok River, of tug-of-war, or throwing balls and playing football. It's a very interesting festival that you should attend. Write to me soon!

Task 2: Listen to a talk about Christmas then fill in the gaps below. **Track 04**

I think Christmas is one of the happiest times of the year. Everyone has a smile on their face, especially children. It's such an exciting time for kids. They can't wait to open their presents and play with all of their new games and toys. It's a nice time for adults too. They can catch up with their families and relax. Traditionally, the mother of the family is busiest at Christmas. She does most of the Christmas shopping and wraps the presents. Of course, she also spends hours cooking Christmas dinner. Let's not forget the true meaning of Christmas, though. It is not about shopping and Christmas trees and 'Frosty the Snowman'. It's all about love for each other and peace around the world. Let's hope this message stays alive.

First, they lose all their luggage, then they end up in the wrong city by mistake. After that, someone thinks they are bank robbers and there's this crazy car chase. If you want a good laugh, you should see it.

B: Yeah, I've had a busy week. It sounds like the kind of movie I need to see.

2.

A: Oh, it's one of those movies that's full of car chases and fights and people jumping out of airplanes and stuff. B: Yuck. I hate those kinds of movies. I don't think I bother seeing it. Thanks, anyway.

5.

B: Hey, that sounds interesting. I like movies like that.

Task 2: These people have to go somewhere. How will each person get there? Listen and circle the correct answer. Track 08

6.

A: Are you going to take the bus downtown or are you going to take your bike?

B: I think there's too much traffic on the road today to go by bike. It's not safe to ride in traffic.

A: I guess there's so much traffic because of the big football game. Well, look, I'm driving downtown. Can I give you a ride?

B: Hey, thanks.

A: So do you use your bike very often?

B: Not during the week, but I ride it pretty often on the weekend.

7.

A: How are you going to get downtown? Are you going to drive?

B: I don't think so. I just heard the traffic report on the radio. It seems there is a traffic jam on the freeway. They said a couple of buses have broken down.

A: I guess it will be quicker to take the subway.

B: Absolutely!

8.

A: Gosh. I wonder how much longer we'll have to wait for a bus? We've waited half an hour already! Do you think we should go back and get the car?

B: Oh, no. I hate driving at night.

A: Let's take a taxi. I don't want to be late for the movie.

B: Good idea. I'll call for one on my cell phone. They usually come pretty quickly.

9.

A: How are you going to get home from the restaurant on Sunday, Harry?

B: Oh, I can just take a bus or a taxi. There are usually plenty of taxis around that area at night.

A: Yes, but not on a Sunday night. You might wait for a long time. Why don't you ask Kevin to drive you home? He's having dinner with us and he lives near you.

B: That's right. I'll ask him.

10.

A: What's the traffic like downtown today?

B: It's pretty bad. One of the traffic lights is broken, so all the traffic is backing up.

A: Oh. How should I get to my doctor's appointment? Drive? Take a taxi?

B: A taxi won't be any faster than driving.

A: Well then, I'll probably take the subway to the station and then walk from there.

B: Yeah, today I think that's the fastest way.

Suggested answer:

My favourite film is "The Mockingjay". I watched it in November 2015 at the National Cinema. I went there with a group of my classmates after we finished an important examination. The movie was about a heroine, Katniss Everdeen, who devoted her own life to save the life of other people in her nation. I like the movie because it was full of heroic actions. The film also showed how friendship and love could overcome all difficulties and challenges. That is a really important lesson for me and I think it is a must-see movie.

They believe this takes the bad luck away for the year.

8.

Woman: Many countries have holidays to bring good luck. In Thailand, people hold this festival. The festival takes place everywhere in Thailand, but is especially popular in the north. Water Festival takes place in the middle of April. It is part of the Thai New Year. People throw buckets of water on each other. There are even parades where people throw water. It's especially important to pour water on older people. It shows respect.

Woman: Brazil is famous for this huge festival, with lots of music and dancing. The festival is called Carnaval. The most famous Carnaval parties are in Rio de Janeiro. In Rio, bands travel through the streets in parades. People enjoy dancing and dressing up in fancy clothes. The Brazilian samba dance contests are famous around the world. Carnaval is a festival for people to celebrate and have a good time.

10.

Man: This holiday is celebrated in many countries all over the world. It is a happy time in the Chinese calendar. There are parades in the streets, and families gather for big dinners. At these dinners, children get "lucky money" in red envelopes. Before the New Year, Chinese people always clean their houses to clean out bad luck. Everything must be fresh and clean. People also make sure they have paid all their bills. It is important to start the New Year without owing anyone money.

Task 1: Listen to a record about solar energy then fill in the gap. You will listen TWICE. Track 13

Solar energy is the key to our future. If we do not use it, our planet will not survive. We do not have enough resources on Earth to supply our energy needs. We are slowly using solar energy more. Most places you go in the world today you can see solar panels on people's houses. I hope that in the future, all houses will use solar power. It's so simple. In fact, it's free. All you have to do is pay for the solar panels and some other equipment, and then you have free energy. Research into solar energy is still in its early days. I think in the future it will be everywhere. We'll be able to buy solar panels from our local DIY store. I also think we'll be wearing clothes that provide solar power, and we'll be driving cars powered by solar energy.

Task 2: Listen and choose the correct answer A, B, C or D. Track 14

Travelling gives you many wonderful experiences you cannot find in your own country. You meet local people and get to understand different cultures. It's so exciting. I love planning trips and doing some research on the country or countries I want to visit. Sometimes I like to plan everything in advance, my flights, hotels and tours, etc. For me, the most exciting thing is arriving in a country with no hotel reservation and no fixed plans. I prefer staying in hostels and guest houses. You get to meet and talk to different and interesting people and share information. I also like to visit places that are off the beaten track. Being somewhere with thousands of other tourists? It's not my cup of tea.

Hanh: Nothing. The sun is shining. It's a beautiful day! Let's do something fun.

Minh: What do you want to do, Hanh?

Hanh: Well, there's a food festival at Eco Park. People are selling food from all over the world.

Hanh: So do you want to go rollerblading?

Minh: I can't. Nam has got my rollerblades.

Hanh: Let's go to Museum of Ethnology then. There's an art fair at Museum of Ethnology. We can paint pottery there.

Hanh: We can make a birthday present for teacher Abbie. It's her birthday next week and she loves pottery. It only costs 20,000 VND.

Minh: I don't know. 20,000 VND is a lot of money.

Hanh: What do you want to do, Minh?

Hanh: You're no fun. I'm going to the art fair. Bye.

Minh: Oh, wait for me! I'm going, too.

Task 2: Track 16

There are some unusual festivals in the UK.

The first is Pancake Festival. Everyone goes down to the road and have pancake races – running with a frying pan and tossing a pancake.

The next one is cheese rolling festival. Round cheeses in round boxes are sent rolling down a hill and people run after them and try to catch them. The hill is very steep, so people often fall over.

Best of all is World Championship Snail Racing taking place in a village in Norfolk. The snails have to race from an inner circle to an outer circle, and the winner gets a lot of lettuce.

Another fun contest is held at the Egremont Crab Fair in Cumbria, north of England: Who can pull the ugliest face? The man who won the title of best gurner the most in recent years had all his teeth taken out so he could make terrible faces more easily.

Finally, in Brighton, there is Burning the Clocks Festival. People make clock lanterns and time-themed figures of paper and wood, then walk through the town to the beach where the sculptures are set on fire and there's a massive firework display.

Man: Listen to this! This newspaper article says that some scientists are working on a new kind of airplane. People can use these "flying cars" for short trips.

Woman: How interesting!

Man: The article says the first flying car might be ready within the next few years.

Woman: That's quite soon! How would this flying car work? Can anybody use one, or is it only for people who know how to fly airplanes?

Man: You don't need to be an airplane pilot to use a flying car. The article says there would be a computer inside the car that would know where you want to go. The driver does not need to control the car unless something goes wrong.

Woman: Does the article say how much a flying car would cost? It will probably cost too much money! We would not be able to afford one.

Man: True, but wouldn't it be nice to fly over traffic jams, instead of sitting in the middle of them?

Woman: Yes. But then we might end up with traffic jams in the sky!

***Write a paragraph of about 70 - 90 words about what we should do to save energy.**

Suggested answer:

There are many ways we can do every day to save energy. One simple way is to use low-energy light bulbs. Second, we should turn off all electric devices like TVs, radios, computers and lights when we go out. When we go short distances, we can walk or go by bike instead of driving a car. When we go longer distances, we can choose to go by public transport. If we do so, we can save money for ourselves and at the same time we can limit the use of energy in general.
